

- Organize a board to keep track of tasks

### **How to store chat-related history? What is the most efficient way?**

No need to understand the backend

Filtering and sorting make sense

Think about UX Perspective

Clickable pins on map

Filtering difficult filter values

Mockup is approved

Smaller pins on the map (also clustering pins)

Checkmark for saving houses

Exporting the list of saved homes -Still looking for ways-

Drawing shapes on a map (like 1 km radius)

Include Auth System

For next week

Set IDE

Learn REACT/JS for the ones who don't know
