STARTUP and Project

Hard to convert leads to customers
potential leads are a lot
but don't have enough time to create an analysis for every lead
because of that hard to convert leads to customers
realtors quickly generate analysis <- convert leads to customers
Smart Search (chatbot) realtors can ask questions to filter homes based on clients by realtors
Save time, high quality

Specific analysis?
Different ways
EXAMPLE
interested in buying a house, not 100% sure, you are talking to a realtor, have some preferences (location, has parking, etc.) many preferences of different types. Some preferences are easy to filter, but some stuff is hard to filter (like a big bedroom)

Chatbot (Smart search)

Smart SMA
Determine the price of the home,

Smart reports
smart report generating tool
